ABOUT ME

Passionate Web Developer with a strong enthusiasm for technology and the IT industry. Skilled in building responsive and user friendly web interfaces using modern front end technologies. Currently pursuing a BSc(Hons) in Computer Science, with a focus on applying technical expertise to practical projects. Actively seeking an internship to contribute creativity and problem solving skills while gaining valuable hands on experience in a dynamic, real world environment.

EDUCATION

University of Bedfordshire **Sep 2026 - Present**

- BSc. (Hons) in Computer Science

SLIIT City Uni **Oct 2023 - Feb 2026**

- Higher National Diploma in IT

Trinity College, Kandy **Dec 2012 - 2023**

- Completed G.C.E. Advanced Level (2023-February)
  Completed G.C.E. Ordinary Level (2019-December)

KEY SKILLS

- Front-End Development (HTML, CSS, Bootstrap, React)
- Web Application Development
- Bug Fixing & Troubleshooting
- Java, JavaScript, C & C++
- PHP Development
- UI/UX Design (Figma & Canva)
- SQL Server (DBMS)

WORK EXPERIENCE

Feb 2026 - Oct 2026

Internship, WattSoft (PVT) Ltd

- Contributed to the development, enhancement, and maintenance of web and software applications.
- Assisted in troubleshooting, debugging, and resolving technical issues to improve application performance and reliability.
- Collaborated with the development team on feature development, testing, and deployment.

TECHNICAL PROJECTS

Tech Repair Management System

- Developed a Java based Tech Repair Management System using Apache NetBeans for the Object Oriented Programming module.
- Streamlined supplier, customer, and inventory management through an integrated system.
- Applied core OOP principles (encapsulation, inheritance, polymorphism, abstraction) in a real-world application.
- Automated key business processes to improve operational efficiency and data accuracy.

Dynamic E-Commerce Web Application

- Developed a dynamic full-stack Food Store Website for the Web Development module.
- Built a responsive front-end using HTML, CSS, and JavaScript for an engaging user experience.
- Implemented a PHP based back end with SQL integration for secure and efficient data management.
- Included features such as product listings, user interactions, and form handling.

Local Band Digital Showcase Platform

- Developed a full-stack website for the Sri Lankan band "Yaka Crew" using HTML, CSS, JavaScript, PHP, and SQL.
- Included features such as event updates, media gallery, booking system, merchandise store, blog, and admin panel.
- Focused on responsive design, functionality, and maintainable code structure.

CSH System Development & Maintenance Project

- Working on the development and maintenance of the CSH System as a Software Engineer Intern
- Identifying and fixing software bugs to improve system performance
- Supporting system enhancements and updates with the development team
- Participating in testing and debugging to ensure system stability
- Collaborating with team members to maintain and improve overall functionality

Sadaham Joshishya Vidyathanaya System Support & Maintenance

- Identified, investigated, and resolved technical and functional issues.
- Implemented necessary system improvements and feature enhancements.
- Performed testing and debugging to verify system changes and fixes.
- Assisted in improving system usability, reliability, and overall performance.
- Collaborated with team members to troubleshoot problems and implement effective solutions.

CN Corporation Web Application Support & Maintenance

- Provided ongoing support and maintenance for a fully developed web application used by CN Corporation.
- Identified, investigated, and resolved functional and technical issues to ensure smooth application operation.
- Performed updates and enhancements based on system requirements and user needs.
- Assisted in improving application performance, usability, and overall functionality.
- Collaborated with team members to troubleshoot issues and implement effective solutions.

EXTRA CURRICULARS

Clubs & Societies

- Participated in school extracurricular activities focused on agriculture, environment, animal care, and personal development.

Founder & Filmmaker

- Founded a creative film collective focused on short films and visual storytelling.
